

Weight Loss Challenge Testimonials

Name: Freeman W.
From: Rives Junction, Mi

Before Herbalife, at almost 300 pounds, I was extremely overweight, had no energy, and suffered from allergies. For six years I had been on blood pressure medications and was told by my doctor that I would never be able to get off of the medications.

I started on the Ultimate weight - loss program and within days my energy had skyrocketed. I lost 13 pounds my first week, 78 pounds in 7 months and at that time my doctor took me off my blood pressure medications. At the end of my 8th month on the products, I had lost 95 pounds. I had maintained that weight off for over 5 years. When Angie told me about the 100-pound losers club, I decided to go back on the weight loss plan and I lost the additional 5 pounds in just 1 week. I am now maintaining my 100 pound weight loss. My allergies are gone, and no more blood pressure medications.

I truly believe that the Herbalife products saved my life. Thank you Mark Hughes!!
