

Weight Loss Challenge Testimonial

Julie P

WHAT A MESS I WAS!!!

Why I joined the Weight Loss Challenge:

I've been pretty sick for 8 years. I have had no autoimmune system to fight off disease. I have Orbital Pseudo Tumor, Ostia arthritis, Fibromyalgia, Asthma, Girds, 3 Tia's, Discoid Lupus, Restless leg syndrome, IBS, Bakers cyst right knee, Sarcoidosis, and Hypothyroid. I have been on major medications and pain pills. I've had Chemo, and lost my hair twice! 3 Specialists said my hair loss could not be reversed due to scar tissue. I had to get 20 injections once a month in my scalp to try to get my Lupus in remission and my hair to grow back. It did not work.

How my life has changed:

I started taking the Herbalife weight management products, **lost 134 lbs** and have been able to maintain even while still using prescribed steroids..... By using Herbalifeline, our omega 3 product for heart and brain health, my memory is better than ever. My PAIN has been successfully managed to the extent that I no longer use VICODIN OR MORPHINE. Due to other Herbalife targeted products, I have more energy now than I have had in a long time!!! I was able to get off of my IBS medicine and many others. I went from 25 prescriptions to 6 prescriptions. I went from 9 specialists down to 3!!! Now, my specialists are letting me go 6 months in between visits instead of every single month.

SINCE I'VE BEEN TAKING HERBALIFE, I HAVE NEW HAIR GROWTH!!!! Yeah, Cell Activator!!!! I've even had 6 haircuts!!!

Best of all, I'm in remission in all of my long term illnesses! YES, I SAID...IN REMISSION!!

My Favorite Herbalife product:

All the Herbalife targeted products.

How the coaches helped me:

My coaches, Lynn and Harry.... They never ever gave up on me, even when I would give up on myself. They were there with me all the way to get me to where my health is today. I am forever indebted to them and to the Herbalife products.

Loser of 134 Lbs. and
Gainer of a whole new life!
