

## Weight Loss Challenge Testimonials

I have suffered with Fibromyalgia for the past 8 years. It was painful to have clothing touching my skin I was unable to work at my factory job, I slept all the time. I was put in a treatment program at a major university for pain and high blood pressure. FINALLY, I joined the Weight Loss Challenge in February of 2006. I got started on the Herbalife products. After just 3 days, I noticed a difference in my hands and arms. After switching to soy milk with my shakes I lost a total of 75 lbs and 86 inches. I am no longer taking any prescription medications. I have energy, work all day, and look great in size 6 clothes. I could not have done it without the Herbalife products. The Weight Loss Competition kept me on track.

I'm proud to say I'm an independent Herbalife distributor.

LOST: 76 Lbs & 86 Inches!!
